SUMMARY

Full Stack Software Engineer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js) with experience building scalable web applications, RESTful APIs, and responsive user interfaces. Skilled in system design, JWT authentication, database optimization, and CI/CD workflows using Docker and GitHub Actions. Experienced working in Agile development environments, integrating third-party APIs, and delivering secure, maintainable, high-performance full-stack solutions.

EXPERIENCE

Back End Developer Intern

Feb 2026 – Jul 2026

HRFY.AI (HR For You) | Node.js, Express.js, MongoDB, JavaScript, REST APIs, Git, JWT

- Engineered and deployed Node.js/Express.js REST APIs for AI-powered recruitment workflows, handling 1,000+ daily requests in production.
- Optimized backend performance and query efficiency, reducing page load time by 40%.

Technical Support Associate

Oct 2025 – May 2026

Teleperformance | Technical Troubleshooting, CRM, Issue Resolution, AHT, CSAT

- Resolved high-volume customer technical issues while maintaining 86%+ First Call Resolution (FCR) and 85%+ Customer Satisfaction (CSAT) scores.
- Consistently met Average Handle Time (AHT) and After-Call Work (ACW) targets while ensuring quality customer support and issue resolution.

Software Trainee

Jun 2025 – Sep 2025

Acaddin | React.js, Node.js, Express.js, MongoDB, JavaScript, REST APIs

- Architected and delivered custom client-facing applications using MongoDB, Express.js, Node.js, and RESTful APIs, providing end-to-end solutions tailored for enterprise launch.
- Built scalable, reusable frontend components following component-driven development practices.

Front End Developer Intern

Nov 2024 – Apr 2025

SwapSo (Remote) | HTML5, CSS, JavaScript, React.js, Tailwind CSS, Next.js

- Engineered scalable, responsive web applications using Next.js, React, TypeScript, and Tailwind CSS, optimizing performance and state management to enhance user experience.
- Improved data access speed by 70% and authentication performance by 30% through backend optimization.

PROJECTS

AI CareerAgent | *React.js, Node.js, Express.js, MongoDB, Redis, LangChain, LangGraph, Docker, Firebase, AWS* [Link](#)

- Built a multi-agent AI interview platform conducting personalized interviews, resume analysis, performance feedback generation, and tailored learning roadmap creation using LangChain and LangGraph agent orchestration workflows.
- Designed a scalable microservices architecture with Dockerized services, Redis caching, MongoDB, and Firebase Authentication, enabling secure user management and production-ready AI agent deployment.

Sub Track | *React.js, Node.js, Express.js, MongoDB, JWT, REST API Integration* [Link](#)

- Built a subscription management platform enabling users to track, organize, and monitor recurring expenses across streaming services, SaaS tools, and memberships.
- Integrated AI-powered spending insights to identify unnecessary subscriptions and deliver personalized recommendations, helping users optimize spending.

TECHNICAL SKILLS

Certifications: Full Stack Developer (IBM)

Programming: Java, C++, JavaScript, TypeScript, SQL, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication, RBAC, Mongoose, Data Modeling, System Design

Databases: MongoDB, MySQL, PostgreSQL, Redis

DevOps & Tools: Docker, Git, GitHub Actions, CI/CD, Postman, VS Code, npm, JSON

EDUCATION

Chandigarh University, Punjab

B.E. Information Technology

2021 – 2025

CGPA: 7.6/10
